**Milk Substitution Change:**

**In order to comply with Federal Regulations the cafeteria will not be able to substitute a bottle of water or juice in place of milk for students with a lactose intolerance or allergy. We will however, be providing Lactaid Milk to any student who has a lactose restriction. Water is available in all cafeterias free of charge either through a water fountain in the cafeteria or the use of thermoses if no water fountain is present. Cups will also be provided for the students.**

**Each student is allowed 2 fruits with each meal and 1 of these can be a juice at no extra charge. Any extra juice taken will be charged at the ala carte price of \$1.00. A bottle of water will always be charged at the ala carte price of \$.55 for an 8 oz. bottle and \$.95 for a 16 oz. bottle.**

**If you have any questions regarding this, or any other policy, please contact the food service office.**

Thank You,

Shawn Harlacher
