Time Clock System

- **Hourly Substitutes** who accept support staff assignments should “CLOCK IN” & “CLOCK OUT” at the beginning and end of every assignment using the time clock located in each school. Hourly support staff substitutes are paid the hours recorded in the time clock system and the pay rate is based on the job code selected for each assignment. To “CLOCK IN” enter your employee ID number, your PIN (the last 4 digits of your SS#) and then select the job code for the assignment you are working should a list of job codes appear.
- **Per Diem Substitutes** who accept professional and/or support staff assignments should “CLOCK IN” at the conclusion of their daily assignment(s) using the iPad located in the main office. To “CLOCK IN” enter your employee ID number, your PIN (the last 4 digits of your SS#) and then select if worked a full or half day. The time clock punch serves as the official notification you reported for work and will be used to determine your pay and replaces the Aesop sign-in sheet. If you worked a support staff assignment of 4 hours or less select a half day, for assignments greater than 4 hours select a full day. If you worked both a professional and support staff assignment on the same day select full day.

Time Clock questions or missed time clock punches should be reported to Lesley Swab at lswab@cvschools.org.

Paychecks

Paychecks are issued on a biweekly basis, September through June. Direct deposit is highly encouraged, and can be made to the banking institution of your choice. Please contact the Payroll Department if you have any questions regarding direct deposit.

PSERS Retirement Withholding for Substitute Staff

Due to recent legislative changes, all Cumberland Valley School District substitutes will have PSERS retirement contributions deducted from their pay regardless of how many hours or days worked per year. The only exceptions are retirees collecting a monthly benefit or individuals with an active PSERS waiver. Should you wish to waive membership with PSERS, you will need to have a 90 day break in service with all school districts AND provide proof that are currently contributing to one of the following retirement plans:

- Traditional IRA , Roth IRA, Simplified Employee Pension (SEP), or Savings Incentive Match Plan for Employees of Small Employers (SIMPLE IRA)

Participation in a 401(k) is not acceptable as defined by Section 408 in Internal Revenue Code. Retirement questions should be directed to PSERS at 888-773-7748.

Please notify Human Resources at 506-3332 of any phone or address changes, or if you are no longer available to substitute.

SUBSTITUTE PLACEMENT PROCEDURES

Cumberland Valley School District uses the Aesop Automated System to coordinate substitute assignments. When you are approved as a substitute with the District, you will be given a welcome letter containing an Aesop ID number and PIN to allow you access to the Aesop system. The Aesop ID number is your home phone and the PIN number is a random 4 digit number generated by the system. You may change your PIN # once you log onto the system to something you can easily remember.

Once approved by the District, you will also be given the “Aesop Quickstart Guide for Substitutes”. Please review this information carefully and familiarize yourself with the Aesop system. Aesop allows you to find and accept jobs online in addition to receiving calls for assignments. The default hours that Aesop will call you to offer substitute assignments is 6:00am-12:00pm and 5:30pm-10:00pm. You may customize the hours you prefer Aesop to call you by logging into the system and selecting the link “Tell Aesop When to Call”.

Aesop is set up to allow substitutes to view and accept jobs in the following PDE approved order:

- 1st – Substitutes who are certified in the same subject area as the teacher who will be absent
- 2nd – Substitutes who hold a valid PA Certification in any subject area
- 3rd – Guest Teachers
- 4th – Retirees

Due to PDE regulations, a sub will not be placed out of his/her certification for more than 20 days unless it is an emergency or shortage situation. In these situations, a \$100 fee must be paid by the substitute to apply for a Type 06 permit, if the substitute wishes to accept such an assignment.

You will not be notified of weather related school delays or closings. You are not required to report to work if there is a school closing. For inclement weather updates, please consult the District website at www.cvschools.org, or the following stations:

RESPONSIBILITIES OF THE SUBSTITUTE TEACHER

OVERALL EXPECTATIONS

The role of the substitute teacher is truly professional. A sincere desire to do a good job will go far toward establishing you in this truly rewarding profession. A substitute teacher should become informed as much as possible about building routines and general policies of the schools. Student handbooks are available and helpful. Often the substitute is a person returning to the classroom after an absence of several years. It will be helpful to be well informed on current trends.

The regular classroom teacher is expected to do many things beyond routine classroom teaching. As a substitute, you must be prepared to take over duties assigned to the teacher of the day. We believe our substitutes are competent to manage a classroom. If the substitute period is an extended one, be prepared to assume reasonable obligations within the limits of your ability.

To ensure the safety, security, and well-being of all students within our care, custody, and control, personal activities are not permitted during classroom instructional time. Personal activities must be limited to lunch and break times. Substitutes are required to actively engage and have involvement within the classrooms (i.e. roaming the classroom as students work, utilizing proximity when working with students, etc.). It is a priority that students be monitored at all times and should not be left unsupervised.

Substitutes should seek guidance and assistance from either the appropriate supervisor and/or the building principal if concerns or questions arise about the responsibilities and tasks required of them in their daily assignment.

USE OF PERSONAL DEVICES

The use of personal devices (laptop, cell phone, tablet, etc.) is not permitted during classroom instruction time. Use of personal devices must be limited to lunch and break times except for emergencies (and approved by administration).

ATTIRE

Professional attire and footwear is expected during your substitute assignment.

CONFIDENTIALITY

Please remember to keep all school experiences strictly confidential. This is especially important if you are called to teach in a school in your own attendance area.

Interactions with students, staff, and parents should remain professional at all times. All students, staff, and parents should be treated with respect and dignity.

CHECK IN AND CHECK OUT

Upon arriving at the assigned building, substitutes should take the following important steps:

1. Report to the school office upon entering the building.
2. Contact the principal for information and assistance relative to the class or subject you will be teaching.
3. Wear the "Substitute" ID Badge to identify yourself.
4. Become oriented to the building and identify the locations of major areas.
5. Seek instructions for checking out at the end of the day.
6. Check the teacher's mailbox before school and at each recess for messages or appointments. Messages should be referred to the office, unless they are routine in nature.
7. Ensure you have clocked in/out of the time clock system properly.

All substitute teachers should "check out" at the school office before leaving for the day.

SUGGESTIONS FOR YOUR SCHOOL DAY

1. Place your name on the board so that students will know you and address you by name. Pay close attention to your handwriting. You are the student's model for the day.
2. Be in your room when the students arrive. This will help to get the day off to a good start. It is necessary to establish good discipline and effective control.
3. Follow the regularly established classroom routine and make as few changes as possible. Check on procedures for going to recess, the lavatory, cafeteria, etc.
4. The regular opening exercises consist of the National Anthem played on the public address system followed by the Pledge to the Flag.

5. Check attendance carefully. Our teachers take attendance electronically, but you will be issued a hardcopy student roster and will be asked to take attendance using this list. If you ask each student to raise his/her hand as you call his/her name, it may assist you in associating names and faces. Accept any corrections in pronunciation graciously. Attendance information will be collected each morning.
6. The students will be quick to tell you if what you are doing varies from the established day-to-day routine. Remember that students have a loyalty to the classroom teacher, and it is natural for them to be anxious about change. If such a situation arises, be pleasant but firm as to how it will be done today. However, you should adhere closely to the regular teacher's routine.
7. Be aware of attention spans. As you will most likely be teaching on various grade and ability levels throughout the year, give careful attention to the concentration span of the group of students you have for any particular day.
8. The teacher's lesson plan book and seating chart generally can be found on the teacher's desk. Read the plans carefully. This is your best clue as to what you are to teach. Locate all materials to be used during the course of the day. Place markers for the pages indicated. They will help later on. Check the procedure for using audio-visual aids, if any are to be used. Organize materials so they are easily accessible. Since students are used to the established routines of the regular teacher, class control becomes difficult if you appear indecisive or insecure. If you fail to find the lesson plan book or the daily program, contact the principal.
7. Check the daily program or schedule. Although you will need to refer to this schedule throughout the day, it will be wise to take a few minutes to get a general picture of what lies ahead before the day begins. It is most appropriate that time scheduled be maintained. Check to see what special teachers, if any, will be in your room. Students may be leaving the room at certain times for instrumental lessons or special reading classes. The more familiar you are with the schedule, the better your class control will be.
8. Scan the seating chart. You cannot learn 20-25 names in a minute; so you must be resourceful. Pinpoint the location of a few students to help you with your name association. Avoid the use of phrases such as "you in the blue sweater". A good idea is to have students print their names on heavy paper that can be folded to stand up on each desk.
9. Check with the teacher's duty schedule to see if you have any assigned duties outside the classroom. In the colder months, it is always wise to come prepared for outdoor recess.
10. If an emergency arises which requires you to leave the classroom, please contact a teacher in an adjoining room to assist in supervising your class.
11. After dismissal of your students for the day, each substitute teacher is expected to fulfill the following list of requirements.
 - All substitutes are to remain in school until the regular dismissal time.
 - All papers assigned by the substitute are to be corrected by the substitute unless otherwise specified by the regular teacher.
 - An outline of the day's activities accomplished by the substitute should be prepared and left for the teacher.

12. Substitutes who will be teaching for an extended period of time will be responsible for writing lesson plans, attending faculty meetings, and performing all other duties required of the regular classroom teacher.
13. All elementary schools have cafeteria aides who supervise the students during the lunchtime in the cafeteria. It is the responsibility of the teacher to escort their students to the cafeteria at lunchtime. Lunch schedules vary from school to school within the district. Please become familiar with the lunch schedule in the building where you are teaching. Unless otherwise indicated, please stay with your class until they are through the lunch line.
14. If the class leaves the room for art, music, or physical education class, it is usually the teacher's responsibility to escort the students to and from these classes (elementary).
15. Be aware that administrative personnel will feel free to visit your room. Do not let this bother or distract you from your teaching.
16. Class control can be a major problem for any teacher. A few simple suggestions will help you establish good routines, provide for efficient learning situations, and establish mutual respect of teacher and pupils.
 - A. Students tend to respond to whatever we expect of them. A positive approach is the key to good behavior. Emphasize that which is expected – avoid a long list of negative rules.
 - B. The use of corporal punishment is not permitted in the Cumberland Valley School District.
 - C. In spite of your best efforts, you may have a pupil who becomes a real discipline problem. In such cases, the principal should be notified.
 - D. Learn to respect student's individual differences. Slow students are not usually slow on purpose. They need help, understanding and encouragement, not lectures. Avoid ridicule and sarcasm in correcting students.
17. The following guidelines are to be used in relation to health and accident procedures.
 - A. Each Cumberland Valley School is staffed with a full-time nurse.
 - B. Refer all cases of illness or accident to the school nurse. In case of accidents on the playground, the teacher or aide on duty shall not leave the playground unsupervised to accompany the injured student to the health room. The playground aide or a reliable student shall be sent for the nurse, or shall accompany the injured student to the health room.
 - C. Medication should not be administered by the teacher in the classroom. If any student brings medication to school, they should be sent to the school nurse who is responsible for supervising the taking of all medication.
 - D. Teachers are urged to keep a list of students with special medical histories in their desks. You should check early in your assignment to see if any such students are in your classroom.
18. Review the fire drill evacuation plan and your responsibility early in the day. These will differ in each room and school and are on display in each room.

LUNCH TIME RESPONSIBILITIES

Teachers may leave the building during lunch/recess if they do not have supervisor responsibilities. Please inform the office when you are leaving and returning.

RECOMMENDED BEHAVIOR FOR EMERGENCIES

Use common sense. Assess situations based on the information available at that moment in time. React, based on training.

Be calm and do not panic. Do not add to the problem—reduce the problem (emergency) by acting as a controlled person. Be in control to provide leadership and direction for others to act and/or follow, thus reducing panic.

Follow procedures. Be able to select the proper procedures for the respective emergency for which they are designed. Note, many procedures are the same, regardless of the emergency. Know these common (generic) procedures first.

Act immediately. Prompt attention is necessary to stabilize an emergency situation.

Seek help. As immediate need and help dictates, act as best you can, then seek help. Then notify proper authorities and administration.

Please note that the first 15 minutes of an emergency may be the most critical. Act quickly. Know the procedures to follow.

Document. Make a record of all events, including date, time, persons involved and particulars.

INSTRUCTIONS FOR PREVENTING THE SPREAD OF INFECTIOUS DISEASES IN THE WORK PLACE

To prevent the spread of infectious diseases (i.e., hepatitis B, human immunodeficiency virus (HIV), all Cumberland Valley School District personnel will follow the procedures listed below when handling body fluids (i.e., blood, urine, vomit, etc.) in the work place:

1. “Universal precautions” will be followed. The term “universal precautions” refer to a concept of blood borne disease control which requires that all human blood and other potentially infectious materials be treated as if known to be infectious for HIV, HBV, or other blood borne pathogens regardless of the perceived “low risk” of a patient or patient population.
2. Those treating or assisting injured persons or cleaning soiled surfaces should avoid exposure to open skin injury or mucous membranes to the blood or body fluids by always wearing protective disposable gloves.
3. Surfaces soiled with blood or body fluids should be promptly cleaned with a disinfectant as supplied by the district or household bleach (diluted with 1 part bleach to 10 parts water). Mops and all cleaning equipment coming in contact with the blood or body fluids should be rinsed in the disinfectant. The disinfectant solution should be discarded after each use.
4. Disposal towels or tissues should be used in treatment and cleanup.
5. Body fluid or blood soaked items should be disposed of in double plastic bags which must be sealed or tied to prevent leakage or contamination.
6. Upon completion of the treatment or clean up, the soiled gloves should be removed and disposed of in a sealed plastic bag, taking care to avoid skin contact with exterior surface of the gloves.

7. Hand washing should take place as soon as possible after exposure to blood and upon removing soiled/contaminated gloves. Antiseptic hand cleaner is recommended. If this is not available, regular soap and running water is an acceptable alternative.

In case of direct exposure via handling body fluids, the employee is required to notify the school nurse and complete an Accident/Injury Report form and Workers' Compensation form. Cumberland Valley School District will offer/require medical consultation to determine the exposure potential and explain diagnostic/treatment options.

By following these routines hygienic procedures in treating and cleaning up when blood or body fluids are involved, the potential for the spread of infections in this manner will be greatly reduced.

The school nurse assigned to your building is available to respond to questions you may have concerning the procedures.

The Superintendent will handle any inquiries from the public or media regarding HIV cases.

ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)

The widespread publicity that Acquired Immunodeficiency Syndrome (AIDS), a blood transmitted disease, has attained has caused health officials to remind everyone that other infections can also be present in blood or body fluids. In fact, the Centers for Disease Control (C.D.C.) has recommended that all schools adopt routine procedures for handling blood or body fluids.

In response to the C.D.C.'s recommendation, the following clean-up procedures associated with the treatment and cleaning-up of injuries where blood or body fluids are involved should be followed in all Cumberland Valley School District facilities.

1. Those treating or assisting injured persons should avoid exposure of open skin injury or mucous membranes to the blood or body fluids.
2. Surface soiled with blood or body fluids should be promptly cleaned with disinfectants, such as household bleach (diluted 1 part bleach to 10 parts water). Mops and all cleaning equipment coming in contact with the blood or body fluids should be rinsed in the disinfectant. The disinfectant solution should be discarded after each use.
3. Disposable towels or tissues should be used for clean up and discarded by sealing in a plastic bag. These are available.
4. Those doing the cleaning should avoid exposure of open skin injury or mucous membranes to the blood or body fluids.
5. Immediately afterwards, everyone who has had direct contact with the blood or body fluids, either in treatment or clean-up, should thoroughly wash their hands.

By following these routine hygienic procedures in treating and cleaning up when blood or body fluids are involved, the potential for the spread of infections in this manner will be eliminated.

The school nurse assigned to your building is available to respond to questions you may have concerning the procedures.
