PIAA COMPREHENSIVE INITIAL PRE-PARTICIPATION PHYSICAL EVALUATION

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1st and shall be effective, regardless of when performed during a school year, until the latter of the next May 31st or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

B. Understanding of eligibility rules: I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance.

Parent's/Guardian's Signature _____ Date____/____/_____

C. Disclosure of records needed to determine eligibility: To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data.

Parent's/Guardian's Signature _____ Date____/____/_____

D. Permission to use name, likeness, and athletic information: I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics.

Parent's/Guardian's Signature _____ Date____/____/_____

E. Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 6 regarding a medical condition or injury to the herein named student.

Parent's/Guardian's Signature _____ Date____/____/_____

F. CONFIDENTIALITY: The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical condition will not be shared with the public or media without written consent of the parent(s) or guardian(s).

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?
A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?
Concussions cannot be seen; however, in a potentially concussed student, ***one or more*** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
  The right equipment for the sport, position, or activity;
  Worn correctly and the correct size and fit; and
  Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 patients under 25 die of SCA each year.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- dizziness
- lightheadedness
- shortness of breath
- difficulty breathing
- racing or fluttering heartbeat (palpitations)
- syncope (fainting)
- fatigue (extreme tiredness)
- weakness
- nausea
- vomiting
- chest pains

These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who have SCA die from it.

Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The Act is intended to keep student-athletes safe while practicing or playing. The requirements of the Act are:

Information about SCA symptoms and warning signs.

- Every student-athlete and their parent or guardian must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.
- Schools may *also* hold informational meetings. The meetings can occur before each athletic season. Meetings may include student-athletes, parents, coaches and school officials. Schools may also want to include doctors, nurses, and athletic trainers.

Removal from play/return to play

- Any student-athlete who has signs or symptoms of SCA must be removed from play. The symptoms can happen before, during, or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.

Risk of Injury Acknowledgement Form

Cumberland Valley School District has provided you with a qualified coaching staff, protective equipment and qualified supportive sports medicine staff. Despite all efforts to minimize the risk of sports, athletes are seriously injured yearly in almost every sport. Be aware that every sport carries the inherent risk of catastrophic injury including but not limited to: blindness, paraplegia, quadriplegia, brain injury, sudden cardiac arrest or even death. Participants and their parents/guardians must accept this risk or they should not participate.

For your personal safety, it is imperative that you:

1. Inspect all of your equipment on a daily basis. Report any improperly fitting and/or faulty equipment to your coach or the athletic trainer immediately.

2. Know and observe the rules of the game; they are in place to protect you and other participants.

3. Become a better and safer athlete by listening to coaching instruction and learning proper technique.

4. Report all injuries and illnesses to the athletic trainer and/or team physician immediately. We cannot help you if we do not know you are injured or ill. (Informing us immediately is important for many reasons, including documentation for insurance and our records.)

5. Follow the advice of the athletic trainers/team physician regarding participation after illness/injury. **If you see a physician for any injury/illness, you may not return to practice or competition until the athletic training staff has received a note from the physician allowing you to participate.**

6. If an injury occurs, **do not move injured players or attempt to remove any gear.**

We have read the above statements and have discussed any questions we have with the coach and/or athletic trainers. I fully understand the risks involved in athletic participation at Cumberland Valley School District and we agree to abide by the listed standards.

POLICY NO. 227: RANDOM DRUG TESTING AND BREATHALYZER TESTING GENERAL AUTHORIZATION AND CONSENT

We, the undersigned Student and Parent/Guardian, understand that the consumption of alcohol and the illegal use of controlled substances are unlawful activities which pose a substantial risk of harm to the Student and other members of the community. The Student hereby agrees to accept and abide by the standards, rules, and regulations set forth by Cumberland Valley School District Policy No. 227 (Drug Awareness/Paraphernalia). Under Policy No. 227, two procedures have been put in place to address the concerns about student use of drugs and alcohol: Random Drug Testing and Random Breathalyzer testing.

RANDOM DRUG TESTING (applies to students participating in privileged activities)
Student participation in athletics, extra-curricular activities, co-curricular activities, and driving to school is a privilege. The Student's participation in these activities and the reputation of the school are dependent, in part, on the Student's conduct as an individual. By signing this General Authorization and Consent, if the Student participates in athletics, an extra-curricular activity, a co-curricular activity, or receives driving privileges, the Student and Parent/Guardian hereby agree and consent to having the Student participate in random drug testing for the duration of time the Student participates in the activity.

The Student and Parent/Guardian also authorize Cumberland Valley School District to conduct, and hereby consent to, a test on a urine specimen which a Student randomly selected for testing will provide for the purpose of screening for drug use. We also authorize the release of information concerning the results of such a test to the Cumberland Valley School District and to the Parents and/or Guardians of the Student.

RANDOM BREATHALYZER TESTING (applies to students participating in certain school social functions)
Furthermore, the Student and Parent/Guardian acknowledge and understand that the Cumberland Valley School District has implemented random breathalyzer testing of students who attend certain school-related social functions, including but not limited to school dances, Winter Gala and the Prom. Students attending such social functions may be selected randomly for the purpose of undergoing breathalyzer testing prior to being permitted entry into the event. Breathalyzer testing will be performed by qualified individuals for the purpose of determining whether a student has consumed alcohol. The Student and Parent/Guardian hereby consent to Cumberland Valley School District administering a breathalyzer test to the Student that attends such a social function, in the event the Student is randomly selected for such test.

This also shall be deemed a consent pursuant to the Family Education Right to Privacy Act for the release of above information to the parties named above. These signatures signify consent to the standards, rules and regulations as set forth in Policy No. 227. Policy No. 227 is available upon request at the high school office or may be viewed on the district web site www.cvschools.org.

The purpose of the reporting of the Student's drug test results to the Student, the Student's parent(s)/legal guardian, and the above-named employees of the District is to enforce the District policy that students participating in athletics, students participating in extracurricular and co-curricular activities, and students with driving privileges, be drug free, and to facilitate placement of students who test positive participate in a drug assessment of drug treatment program. This Authorization shall expire on the earlier of the date of the signing by the Student and the Student's parent(s) or legal guardian of another Authorization to Disclose Individually Identifiable Health Information intended for the same purposes stated in the Authorization, the date on which the Student's enrollment as a student in the District terminates or one (1) year from the date of this Authorization.

We understand that we have the right to revoke this Authorization by delivering to the Administrative Director of the Department of Laboratory Medicine of Geisinger Holy Spirit Hospital, 503 North 21st Street, Camp Hill, Pennsylvania, 17011 a written statement stating our intent to revoke this Authorization. We also understand that our revocation will be effective immediately upon its receipt by the Administrative Director of the Department of Laboratory Medicine of Geisinger Holy Spirit Hospital. We further understand that if we refuse to sign this Authorization, or if we revoke this Authorization, the Student will not participate in any drug testing and, therefore, will not be eligible for participation in the District's athletic program, extracurricular or co-curricular program, or for the driving privileges, for which the testing was required.

We understand the disclosure from Geisinger Holy Spirit Hospital to the Student, the Student's parent(s)/legal guardian and the employees of the School District is subject to the privacy requirements of the regulations issued under the Health Insurance Portability and Accountability Act ("HIPAA"), 45 C.F.R. Part 164, Subpart E (Privacy of Individually Identifiable Health Information,) and is therefore subject to disclosure only as set forth in the notice of privacy rights which we received along with this Authorization. We understand that after the information about the Student is disclosed by Geisinger Holy Spirit Hospital to the District and ourselves, it is no longer protected by the HIPAA regulations from redisclosure by the District or ourselves to other parties. However, the District and Geisinger Holy Spirit Hospital have agreed that the District will not disclose the results of any Student's drug test to any persons except those identified in this Authorization

We hereby acknowledge that we have received a signed copy of this Authorization, and we have received a copy of Geisinger Holy Spirit Hospital's Notice of Privacy Practices.
